EDUCATION

Sharda University   Greater Noida, UP
Bachelor of Technology in Computer Science, Ai and Ml   *Aug. 2020 – July 2024*

Nezamia Public School   Patna, BR
12th   *Mar 2019 – May 2020*

PROJECTS

1.Job Portal Application   [Link]   [Github]
Tech Stack: *React, Node.js, Express.js, MongoDB,Redux*

- Developed a fully functional job portal with separate user interfaces for recruiters and employees..
- Implemented the frontend using **React**, ensuring a responsive and dynamic user experience.
- Integrated **Redux** as a state management library to manage application state efficiently..
- Built the backend with **Node.j**s and **Express.js** to handle HTTP requests and serve RESTful APIs.
- Utilized **MongoDB** for efficient data storage and management, ensuring scalability and performance.
- Secured user authentication using **JWT**, ensuring safe and reliable login for users.

2. Animated Landing Page   [Link]   [Github]

Tech Stack: Html,Css,Javascript,Gsap,Locomotive Js

- Developed an interactive, visually appealing animated landing page to boost user engagement.
- Utilized **GSAP** for smooth animations and transitions, ensuring a dynamic user experience.
- Integrated **Locomotive.js** for smooth scrolling and parallax effects, enhancing the overall aesthetic.
- Optimized assets to ensure fast load times and smooth performance across devices.
- Demonstrated strong skills in modern UI/UX design, focusing on seamless interaction..

3.Resume Builder   [Github]

Tech Stack: Html,Css,Php,Javascript

- Developed a Resume Builder with user sign-in, sign-up, and download features.
- Designed the frontend using **HTML** and **CSS** for a user-friendly interface.
- Implemented the backend using **PHP** to manage core functionality and database interactions.
- Used **PHPMyAdmin** to manage the database, ensuring optimal performance through connection pooling.
- Integrated secure user authentication and authorization by implementing PHP sanitization methods.
- Leveraged **SQL** for reliable and scalable data storage, ensuring data integrity.

TECHNICAL SKILLS

Languages: Javascript Php,Typescript, HTML, CSS
Frameworks: Node.js, Express,codeigniter
Libraries: React.js, Recoil(state management)
Database: MongoDB, PostgreSQL
Developer Tools: Git, Docker, Visual Studio Code, Prisma
